Hello,

We have published the first issue of the new year. This year, we went down the path of name change in the journal. As it is known, the first name of the journal was “**Journal of Translational and Practical Medicine.**” The purpose of publishing this journal was to include and publish articles in the fields of translational medicine and general medicine. Translational medicine is an important field that constitutes the pioneer of many innovations. When it was realized that there was a lack of articles in the field of translational medicine within a two-year period, it was decided to continue only in the field of general medicine, which was our second goal, and to make a name change in accordance with this. “**Ankyra Medical Journal**” has been adopted as the new name.

The aim is to publish high-quality articles that are indexed by important scientific article citation platforms. We would like to thank all the authors who contributed their articles to the publication of the journal, the reviewers who meticulously carried out the peer review process, valuable scientists who worked on the editorial board, and the journal publishing house.

We wish to meet you for many years.

**Prof. Mehmet ÇITIRIK**
